## Freedom breeder racks

For reptiles and rodents breeding!

The Original freedom breeder rack systems are the first "open-air" rack with a complete line of modular racks for most every application. Designed by breeders and used by the top breeders around the world, freedom breeder racks are renowned for their durability, quality and functionality.

Don't be fooled by cheap imitations without checking the quality and the accessories. These racks have earned the reputation as the "industry standard" for serious breeders of reptiles and rodents.
